Get a quick valuation for your vehicle

Sell

Sell your vehicle at the best price

Scrap

Scrap your vehicle at the best price

BRAND STORY

People are the foundation of a company's success.

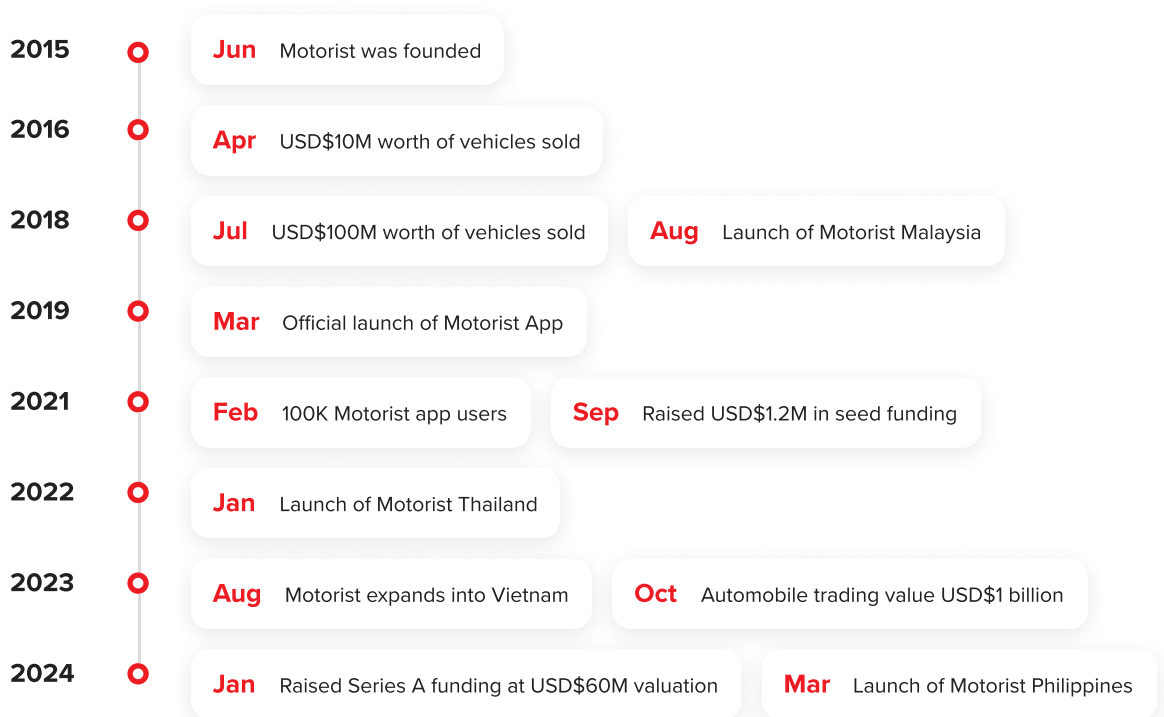

- Damian Sia, Founder of Motorist

Motorist was founded in 2015, after our founder Damian Sia tried selling his car on his own. As a first-time seller, he encountered many **unreasonable offers from unethical buyers** who tried to take advantage of his inexperience. After this experience, Damian came up with the idea of a **reliable third-party platform** where car owners could connect with certified and genuine buyers, and find **professional help** for any doubts they might have. Thus, Motorist was born.

To date, the company has also grown from a one-man team to a bustling company with over **128 employees** and now, Motorist has developed into a **comprehensive AutoConcierge platform** that not only assists drivers with vehicle transactions, but also helps them to conveniently **manage all aspects of vehicle ownership**. What was once a simple idea, is now simplifying the life of every driver in the region.
